## Starting Signal: Mitsubishi Electric constructs a new office building in Ratingen

**The starting signal has been given. Mitsubishi Electric will build a new office and administration building in Ratingen-Ost. The contract concerning the new building was signed and notarized on 17 January 2014. The company subsequently announced the plans in a press conference. The German branch of Mitsubishi Electric Europe has been located in Ratingen, near Düsseldorf, for over 30 years and due to its excellent logistic infrastructure Ratingen has been chosen again as the location for the new office.**

The starting signal has been given. Mitsubishi Electric will build a new office and administration building in Ratingen-Ost. The contract concerning the new building was signed and notarized on 17 January 2014. The company subsequently announced the plans in a press conference. The German branch of Mitsubishi Electric Europe has been located in Ratingen, near Düsseldorf, for over 30 years and due to its excellent logistic infrastructure Ratingen has been chosen again as the location for the new office.

“With the decision to invest in Ratingen in a new building in accordance with the international environmental standard, LEED Gold (Leadership in Energy and Environmental Design), we strengthen our engagement in the region and are clearly committed to the Ratingen location“, explains Akihiko Furuse, President of the German branch of Mitsubishi Electric Europe. “The German branch is one of our most important locations in Europe”.

The company is building and buying the new complex with its partner “RSPartner Immobiliengesellschaft mbh” on approx. 9.000 square metres of land at Balke-Dürr-Allee. Approx. 16.000 square metres gross office space over 5.5 floors offers sufficient space for offices, meeting rooms, technology and training centres, which comply with the high standards of a future oriented working environment. In addition an underground car park with about 500 parking spaces will be constructed. The estate agent “Savills” acted exclusively as agent of the property. Construction of the new office building at Balke-Dürr-Allee will begin in March 2014, with estimated completion in autumn 2015. Frank Küper

“We have chosen the Ratingen location due to its optimal logistic infrastructure: good public transport connections, nearby access to the autobahn and the close proximity to the airport were crucial for our decision“, explicates Frank Küper, Vice President of the German branch of Mitsubishi Electric Europe.

“We want to offer our employees the best working conditions. In addition a modern work environment increases our efficiency and our competitiveness”, summarizes Georg Jennen, General Manager at Mitsubishi Electric.

“At the beginning of 2003 we decided to invest in Ratingen. The success of our engagement is reflected in the readiness to invest of companies such as Mitsubishi Electric or DKV“, explain Dieter Raudonat and Ulrich Kosche, Managing Directors of RSPartner Immobiliengesellschaft mbH.

“This big transaction of more than 16.000 square metres of office space confirms the importance of Ratingen as an attractive office location for internationally operating companies. We are happy about the confidence Mitsubishi Electric has placed in us“, says Panajotis Aspiotis, Regional Director at Savills and responsible for the branch in Düsseldorf.

“The new Mitsubishi Electric office building further strengthens Ratingen as an important industrial location. It marks a significant step for the development of our city because this investment is a mainstay for the business location of Ratingen“, so Harald Birkenkamp, Mayor of the city Ratingen.
